

**Microbial Pathogenesis
Training Grant
Trainee Symposium**

Friday, May 18, 2007

2.00PM to 5.00PM
MSB 1601 Conference Room

-- Speakers --

- 2.00** **Stephanie Bissell:** Miceli Lab
“Galectin-1 modulation of CD8+ T cell activation and memory formation”
- 2.30** **Richard D. Hayes:** Johnson Lab
“*Trichomonas vaginalis* kinesin annotation and functional prediction via phylogenetics”
- 3.00** **Kaori Shimazaki:** Braun/Gordon Lab
“The biological rationale for therapeutic targeting of the four transmembrane protein, EMP2”

-- 3.30 Break --

- 3.45** **Scott Pope:** Smale Lab
“Molecular mechanisms involved in the regulation of *Il12b* during an inflammatory Response”
- 4.15** **Mike Wolf:** Lee Lab
"Development of a *Henipavirus VLP* Entry assay and HTS assays for small molecule inhibitors"

Light refreshments will be served
