

Undergraduate Researcher Acknowledgement Form (MIMG 196A/196B)

In order to enroll in MIMG 196A or 196B, you must sign the following acknowledgement form and submit it to the Undergraduate Office, along with your appropriately completed and signed course contract, project proposal, and faculty mentoring agreement.

In which course(s) are you proposing to enroll? _____ MIMG 196A
_____ MIMG 196B
_____ 180A
_____ 180B

For the 180A research seminar course, please consult the [UCLA Schedule of Classes](#) and indicate which section, in order of preference, you would like to be enrolled if your application is approved. The department offering the course varies by quarter, so be sure to check course listings for both MCDB and MIMG. Efforts will be made to enroll you in your first choice; however, because enrollment capacity is limited, not all requests can be accommodated. **Please arrange your schedule so that you are available for both 180A sections (1 & 2).** Note, however, that in certain quarters, only one section of 180A will be offered. In such cases, please check the day and time the seminar is offered and arrange your schedule so you are available if approved to enroll in Path 2.

_____ 180A (section 1)

_____ 180A (section 2)

I have read all information including enrollment instructions, application and proposal guidelines pertaining to the research courses I have indicated above, and I know that I am responsible for and will be held to all instructions and policies detailed therein.
